

§ 704.7

credit union must also include the underlying assets in each registered investment company in the relevant sectors described in paragraph (d)(1) of this section when calculating those sector limits.

(3) A corporate credit union will limit its aggregate holdings in any investments not described in paragraphs (d)(1) or (d)(2) of this section to the lower of 100 percent of capital or 5 percent of assets. The NCUA may approve a higher percentage in appropriate cases.

(4) Investments in other federally insured credit unions, deposits and federal funds investments in other federally insured depository institutions, and investment repurchase agreements are excluded from the concentration limits in paragraphs (d)(1), (d)(2), and (d)(3) of this section.

(e) *Corporate debt obligation subsector limits.* In addition to the limitations in paragraph (d)(1)(viii) of this section, a corporate credit union must not exceed the lower of 200 percent of capital or 10 percent of assets in any single North American Industry Classification System (NAICS) industry sector. If the corporation does not have a readily ascertainable NAICS classification, a corporate credit union will use its reasonable judgment in assigning such a classification. NCUA may direct, however, that the corporate change the classification.

(f) *Credit ratings.*—(1) All investments, other than in another depository institution, must have an applicable credit rating from at least one NRSRO. At a minimum, 90 percent of all such investments, by book value, must have a rating by at least two NRSROs. Corporate credit unions may use either public or nonpublic NRSRO ratings to satisfy this requirement.

(2) At the time of purchase, investments with long-term ratings must be rated no lower than AA- (or equivalent) by every NRSRO that provides a publicly available long-term rating on that investment, and investments with short-term ratings must be rated no lower than A-1 (or equivalent) by every NRSRO that provides a publicly available short-term rating on that investment. If the corporate credit union obtains a nonpublic NRSRO rating, that rating must also be no lower than AA-, or A-1, for long-term and short-term ratings, respectively.

(3) All rating(s) relied upon to meet the requirements of this part must be identified at the time of purchase and must be monitored for as long as the corporate owns the investment. Corporate credit unions must identify and monitor any new post-purchase NRSRO ratings on investments they hold.

(4) Investments are subject to the requirements of § 704.10 if:

(i) An NRSRO that rates the investment downgrades that rating, after purchase, below the minimum rating requirements of this part; or

12 CFR Ch. VII (1–1–11 Edition)

(ii) The investment is part of an asset class or group of investments that exceeds the sector or obligor concentration limits of this section.

(g) *Reporting and documentation.* (1) At least annually, a written evaluation of each credit limit with each obligor or transaction counterparty must be prepared and formally approved by the board or an appropriate committee. At least monthly, the board or an appropriate committee must receive an investment watch list of existing and/or potential credit problems and summary credit exposure reports, which demonstrate compliance with the corporate credit union's risk management policies.

(2) At a minimum, the corporate credit union must maintain:

(i) A justification for each approved credit limit;

(ii) Disclosure documents, if any, for all instruments held in portfolio. Documents for an instrument that has been sold must be retained until completion of the next NCUA examination; and

(iii) The latest available financial reports, industry analyses, internal and external analyst evaluations, and rating agency information sufficient to support each approved credit limit.

Generally, such a loan will have a maturity of one business day.

Those guaranteed and secured loans must comply with the aggregate limits of § 723.16 but are exempt from the other requirements of part 723.

(f) *Participation loans with other corporate credit unions.* A corporate credit union is permitted to participate in a loan with another corporate credit union provided the corporate retains an interest of at least 5 percent of the face amount of the loan and a master participation loan agreement is in place before the purchase or the sale of a participation. A participating corporate credit union must exercise the same due diligence as if it were the originating corporate credit union.

(g) *Prepayment penalties.* If provided for in the loan contract, a corporate credit union is authorized to assess prepayment penalties on loans.
